MDossierSM Provides Assured Access to Personalized Medical Care Abroad *A first class ticket to trusted medical care for international travelers*

November 18, 2014 (Radnor, PA) – HTH Worldwide, a global health services and technology company, today announced the launch of MDossier, the personalized, pre-travel health and safety report for world travelers. MDossier is the most comprehensive resource of its kind, providing assured access to carefully selected doctors at each point on a traveler’s itinerary.

MDossier reports are prepared by HTH professionals to ensure appropriate medical resources are identified and accessible. HTH staff confirms the availability of top doctors and clinics during the traveler’s stay. To date, HTH Worldwide has prepared thousands of these pre-travel reports spanning 1,289 destinations in 169 countries for selected distribution partners. Now MDossier is available to affluent global travelers through www.MDossier.com.

“MDossier eliminates barriers to travel by providing support and assurance for people traveling with chronic conditions,” said Ron Pinsky, who leads Business Development at HTH Worldwide. “Travelers can feel confident that if they experience a medical episode, they have convenient access to the most appropriate resources to manage the situation.”

MDossier customized reports are produced using HTH Worldwide’s robust databases that include valuable information such as:

- 7,000 directly contracted, English-speaking doctors representing 120 specialties in 190 countries
- 1,700 directly contracted hospitals and clinics
- Security alerts, including severity ratings and travel advice, for 195 countries and 250 cities

All reports come with a 24/7/365 hotline to the HTH Worldwide Global Health and Safety team.

For more information visit MDossier.com.
